

Heavy Duty RB10 Roller System 60mm & 80mm Tube

This innovative system, designed and developed by Acmeda is the very latest expression in highly adaptable window covering drive and support mechanisms. It has been engineered to meet the functional and visual demands of modern architecture.

60mm Tube

80mm Tube

Chain Control (Spring Assisted)

Heavy duty chain control mechanism is designed for large blinds and applications. With the use of bearings and three types of spring assist boosters, blinds up to 25 Kgs (55 lbs) can be manually controlled with a maximum operating effort of no more than 2.3 kgs (5 lbs); at a 1:1 ratio. Available in black or white.

Flat Heavy Duty Baserail 41mm x 15mm

Available colours - anodised, black, white and sandstone.
